## INFORMATION BULLETIN 95-09

TO: CONSULTANTS

FROM: ENGINEERING CONSULTANTS SECTION

SUBJECT: PROJECT NUMBERING ON ALL PLAN SHEETS

To assist Engineering Records in facilitating full size plan sheet retrieval, all plan sheets should have the Federal Aid project number placed in the lower right hand corner of the plan sheet. Enclosed is an example of a plan sheet with the Federal Aid project number.

Please contact John Louis, Roadway Design Group Manager at (602) 255-7707 if there are any questions.

RE: Project Numbering On All Plan Sheets

To assist Engineering Records in facilitating full size plan sheet retrieval, all plan sheets should have the Federal Aid project number placed in the lower right hand corner of the plan sheet (next to the TRACS number - see example). The number need not include the alpha prefix. Plan sheets processed through the Roadway Engineering Control Desk, which do not follow this procedure, will be returned to the project manager for revision. Please distribute this memo to all project managers, design consultants, designers, and others involved in plan preparation. Your cooperation in this matter is greatly appreciated.

A handwritten signature in black ink, appearing to read "John L. Louis", is written over a horizontal line.
